MIFA 7

REMARKABLY AHEAD

Drive the pioneer of premium electrified MPV.

Experience the smart balance of comfort and power in every journey, designed to adapt your ambitions and your family needs.

Family Style Dimensional Design-low Wind Resistance

Fast-charging

Hidden Door Handles

Pulse Light Trails

Matrix Winged Headlights

INVITE THE OUTDOOR INSIDE

With 1.1 m² openable panoramic sunroof, immerse yourself in a boundless landscape, where the breathtaking beauty of the outdoors meets the serene comfort of indoor luxury.

PINNACLE OF SPACIOUS COMFORT

Magnificent space for your unforgettable family adventure, with the best headroom and luxurious seating layout that offers ultimate comfort.

THE AVANT-GARDE OF FUTURE TECH

A cutting-edge dashboard and expansive display panel, meticulously crafted to bring you advanced entertainment and deliver a seamless, futuristic driving experience.

Energy Storing Edge Wheels

JOURNEY IN NEW ENERGY

Welcoming an eco-friendly future, with high-efficiency electric drive system and low wind resistance wheels to optimize vehicle aerodynamics and energy consumption.

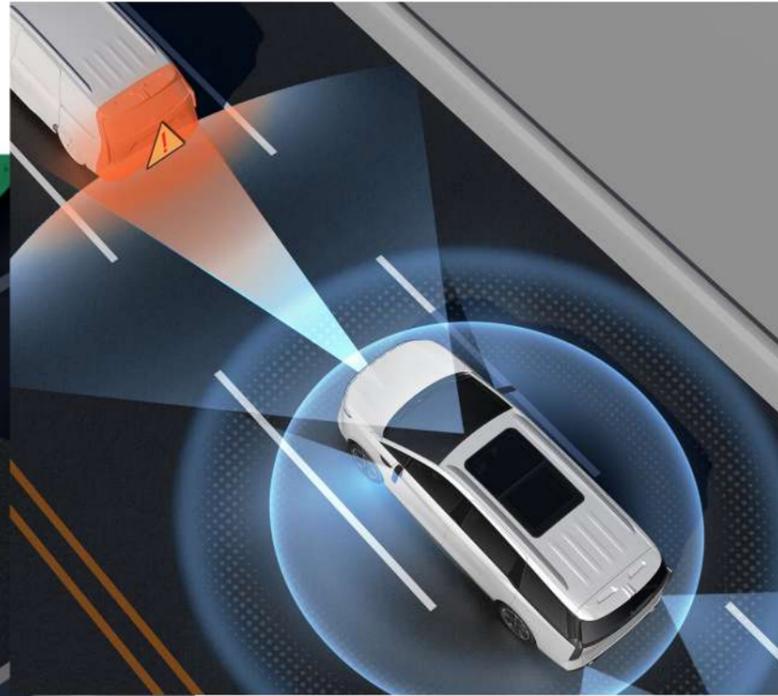

BUILT AHEAD TO PROTECT

Compliance to international standards that set the highest benchmarks for safety. Designed with future advanced safety technologies, assuring passengers a safeguarded journey.

ADAPTIVE CRUISE CONTROL (ACC)

Uses radars to help your vehicle maintain the same speed as the vehicle in front.

FORWARD COLLISION WARNING (FCW) & AUTOMATIC EMERGENCY BRAKING (AEB)

In the 8-80 km/h range, when the FCW system detects a possible collision with the vehicle ahead, it issues an audible warning.

If the driver doesn't react, the AEB system automatically brakes to prevent or reduce collision impact.

LANE DEPARTURE WARNING (LDW) & LANE KEEPING ASSIST SYSTEM (LKAS)

The LDW system detects road dividers through the front camera and alerts if the vehicle drifts from its lane.

If the vehicle is about to leave the lane, the LKA system actively corrects its path to reduce driving risks.

INTELLIGENT HIGH-BEAM CONTROL (IHC)

When the high beam is on, the camera detects oncoming vehicles up to 500m away and automatically switches to low beam to maintain clear visibility without affecting the other driver.

Autopilot L0-L5 Classification

L0 - Driver

L1 - Feet off

L2 - Hands off

L3 - Eyes off

L4 - Mind off

L5 - Passenger
